Mammoth: Witness to Change

Location: Atrium

Somewhere around 10,000 years ago, the climate began warming and the Ice Age ended. As the glaciers retreated, the environment and plant and animal life changed. New hunters, human ones, arrived and brought more pressure on the mammoth and they became extinct. Mammoth fossils - their teeth and bones - have been unearthed through everyday activities of Iowans as they farm the land or dig into the earth for construction projects.

1. The “Hebior” mammoth on display was found with the skull crushed and bones in piles. Some of the leg bones have marks from stone tools and there were chipped stone tools around them. What does this mean?

2. Why do you think the mammoth became extinct?

The Delicate Balance: Human Values and Iowa’s Natural Resources

Location: 1st floor - entrance near Mammoth exhibit.

Iowa’s environment has changed over time. Some changes to the environment happen as a result of nature’s activities – such as floods and tornadoes. Other changes to the environment are brought about by human activities, such as building roads and burning fossil fuel.

1. List three things you see in the exhibit that the Native Americans made from natural resources. What did they use to make them?

2. How were the three habitats in “Tools of Change” changed?

3. Look at the pile of garbage at the end of the exhibit. Write down three things you see that could have been recycled.

MUSEUM EDUCATION

THE DISCOVERY PROGRAM

Look...Listen...Explore!

WELCOME TO THE STATE HISTORICAL BUILDING!

This building is a place where you can journey back to Iowa’s past. In the exhibits, you’ll discover how Iowans used to live, and you’ll see how Iowa’s environment has changed over time. Look. Listen. Explore! Ask questions. Think about how the items on display relate to your life.

While you are visiting, please follow these few simple rules:

1. Stay with your group.
2. Do not touch any object, unless it is part of a hands-on activity.
3. Walk - don’t run - as you tour the building.

Answer the questions in this brochure to test your skills as a time traveler!

Free Time

This is your free time! Here's a few of the things you can do to fill this time:

- Explore the Patten's Neighborhood exhibit in the atrium on the 1st Floor and don't forget to check out the smaller displays near the Education area.
 - Visit the *Where's Floppy?* and *Medical Marvels* exhibits located near the Grand Staircase. Look in the Resource Center for special displays.
 - Wander through *Collection Close-up*, a display area near the entrance of the Museum Store.
 - See the "built in Iowa" Mason car under the Grand Staircase.
 - Use the restrooms and water fountains.
 - Visit the Museum Store. Please remember that all student groups must be accompanied by an adult in the Store.
-

"You Gotta Know the Territory!"

Location: 2nd Floor

From 1838 to 1846, the area that was to become the state of Iowa was a territory inhabited by Native Americans and also by settlers trying to start a new life. It was a time of many changes. Look at the Native American cultures and their way of life. Look at the settlers and their way of life. Think of your own hometown. What was it like 150 years ago? When did your family come to Iowa?

1. There are four different Native American tribes pictured in "I Am." Name them.
 2. What materials were used for decoration by the Native Americans?
 3. Do the hands-on activities: work the saw and plow. Carry water. Churn butter. Look for other chores the settlers had to do to survive. What do you think would have been the hardest chore to do? Why?

A Few of Our Favorite Things

Location: 1st floor - entrance near northwest restrooms.

From aerosol cans to zippers, these are 100 things that shaped people's lives in the past 100 years. Unlike other exhibits, each of these items is displayed as historically important in its own right. And every item tells a story.

1. Write down three medical things you find that are important for keeping people healthy.
 2. Find and write down the names of three things you and your family have used for entertainment or a hobby or on vacation.
-
